## ABOUT US

Pilarindo is a dynamic and diversified holding company with a strong presence in logistics, spare parts distribution, and tyre management systems. We aim to provide seamless, efficient, and reliable solutions to enhance business performance and operational efficiency across industries.

Our expertise, innovative approach, and customer-centric mindset drive us to lead the market while continuously evolving with industry advancements.

PT. Pilarindo Jaya Abadi is a newly established company with a strong foundation built on decades of experience. With deep knowledge, strong supplier networks, and a commitment to excellence, we are dedicated to providing high-quality spare parts that ensure reliability and efficiency for our clients.

We take pride in our extensive inventory, strategic partnerships with global suppliers, and commitment to delivering excellence in every product.

## OUR VISION

To be the most trusted and preferred supplier of high-quality spare parts, ensuring reliability and efficiency for industries worldwide.

We strive to set new standards in the spare parts sector through innovation, superior customer service, and a commitment to excellence. Our vision is to create a seamless supply chain that enhances operational efficiency and contributes to the long-term success of our partners and clients. By continuously improving our products and services, we aim to be at the forefront of industry advancements and deliver sustainable solutions for businesses around the world.

# MISSION

A large, red, 3D-style word "MISSION" is positioned diagonally across a dark, circular compass-like background. The background features concentric arcs and a central needle, suggesting a compass rose. The word "MISSION" is the primary focus, with its red color standing out against the dark background.

## OUR MISSION

- To supply only the best spare parts that meet customers' expectations.
- To provide exceptional customer service and after-sales assistance.
- To continuously innovate and expand our product range.
- To build long-term relationships with our clients and partners.
- To offer cost-effective and sustainable solutions for various industries.

# OUR MANAGEMENT

Our leadership team is composed of seasoned professionals with decades of experience in logistics, manufacturing, electrical engineering, and mechanical-electrical contracting. They bring extensive industry knowledge, strong managerial skills, and a commitment to excellence.

Sumanto

Erwin Yevi

Our key leader has a strong background in logistics and manufacturing, ensuring seamless supply chain operations and strict quality control. His ability to optimize operational workflows and manage supplier relationships allows us to maintain efficiency and reliability in delivering high-quality spare parts. His leadership fosters a culture of accountability and continuous improvement.

Another leader specializes in mechanical-electrical contracting, with vast experience managing industrial projects. His expertise ensures that our electrical and mechanical spare parts meet the highest operational standards, supporting industries with durable and innovative solutions. With a deep understanding of project execution and system integration, he plays a crucial role in delivering technically superior products.

Their combined experience, leadership, and integrity drive our company forward, ensuring sustained growth, operational excellence, and customer satisfaction.
